

Construction Safety Officer Supplementary Course

Course Objectives

The purpose of the course is to provide students with academic qualifications in occupational safety and health or similar fields to have an in-depth understanding of the construction industry's laws and regulations in the field of occupational safety and health through course training and internship, so as to assist employers in implementing occupational safety and health projects. Self-regulate and improve the safety culture and work safety level of industry workers. In addition, "site inspection and internship" are also included in the course to provide students with the opportunity to practice what they learn.

This course complies with the supplementary courses specified in Article 20 "Requirements for issuance of Safety Officer License" of Law No. 2/2023 "Construction Industry Occupational Safety and Health Law", Paragraph 2 (2).

1. OSH Legislation.
2. Decree-law No. 40/95/M (Legal Regime on Compensation for Damage Arising from Work Accidents and Occupational Diseases).
3. Practical operation.

Course Schedule

September 7 to October 4, 2024, every Friday from 19:00-22:00, and every Saturday (9:30-12:30, 14:00-17:00)

(September 21 is tentatively designated as site visit and inspection day, and this session must be attended)

Certificates

Students who have completed the above subject and passed the examination will receive a certificate jointly issued by the Labour Affairs Bureau and the Center for Continuing Education of the University of Macau. Students must meet the attendance requirements for the class (see the detailed attendance system), and the attendance rate on site visit and inspection day must reach 100% to be eligible to take part in the exam; the exam score is 60 points to pass.

How to apply

From now until 18 August 2024, register on the website of the Centre for Continuing Education of the University of Macau and upload the following electronic files to the registration system:

1. Copy of valid Macau Resident Identity Card
2. Copy of supporting documents for bachelor's degree or above in occupational safety and health or similar field
3. Copy of valid Occupational Safety Card for Construction Industry

(The documents of item 1 to 3 must be uploaded together when registering. Failure to complete any document will be considered as invalid registration.)

4. Priority conditions: Documents proving relevant work experience in safety management in the construction industry (must show the position, specific job content, name and title of the employer or his representative, and be confirmed by the company chop and signature of the employer or his representative).
